BOARDMAN TOWNSHIP

On Thursday May 29, 2008 a recently installed pressure equalization station located on Shields Road will be placed into service. This will affect customers located in Boardman Township in the general area bounded by Tippecanoe Road, Mill Creek Park, Sherwood Forest and Lockwood Blvd. Fluctuating water pressures may be experienced during the next several days. If customers have installed a pressure regulating valve in their house adjustments may be required.

We apologize for any inconvenience, and thank you for your cooperation and understanding.

If you have any questions, please contact the Youngstown Water Department Engineering Office at 742-8765.
